Join Jim Wright, nationally acclaimed presenter and author of *RTI Toolkit* to learn about RTI and how it can be used to improve behavior and lead to academic success.

Students who are chronically angry, confrontational, off-task or unmotivated can easily disrupt the learning of an entire classroom. This workshop presents solid, research-based recommendations that teachers can use effectively both with individual students and with challenging groups. The workshop uses 'Response-to-Intervention' (RTI) as a problem-solving model to identify factors that trigger student misbehavior and to select appropriate interventions to reduce or prevent those behaviors. The workshop includes:

- Group management strategies to increase student learning and achieve positive classroom control
- Communication tools to encourage defiant students to comply with teacher requests
- Tips to assist overactive/inattentive students to stay focused and avoid distracting others
- Methods to motivate the disengaged, unmotivated learner
- Ideas to teach students to monitor and manage their own behavior
- Free Internet resources to help teachers to measure and manage student behaviors
